

# QUICK LESSON FOR THOSE ON THE GO

(For this lesson, if possible, use the 1984 New International Version)

## Lesson is from Acts 18:24-26

(v.24) Meanwhile a Jew by what name? He was a native of what city?

(v.24) This man came to what city? What kind of man was Apollos? He had a thorough what?

(v.25) He had been instructed in what? He spoke with what?

(v.25) What did he teach accurately? Though he only knew what?

(v.26) He began to do what? Where?

(v.26) What two heard him? They invited him to go where?

(v.26) They explained what to him? They did it how?

### **Thoughts to ponder:**

Alexandria is in Egypt. Ephesus is in Asia Minor. Why did Apollos travel so far? How do you think Apollos had acquired his thorough knowledge of the Old Testament Scriptures?

How do you think Apollos had been instructed in the way of the Lord?

Apollos only knew the baptism of John, so he needed to know about baptism into Christ. Why do you think Aquila and Priscilla took the time to instruct him more adequately?

Is there a time for public teaching about Jesus? Why?

And, is there a time for private teaching about Jesus? Why?

How does it happen that someone can be sincere in teaching others about Jesus, yet not have all they need to know?

When someone gains new info about Jesus that affects their understanding of the Truth, what should they do?

Got questions about the lesson, let me know.
